

## **Dickinson County Road Commission Alley/Gravel Road Plowing Limitations during Seasonal Road/Weight Restrictions**

Please note that due to the mild weather, Seasonal Road/Weight Restrictions have been implemented and are in effect on the County Road System. Due to the saturated, unstable conditions on the Alleys and Gravel Road systems there is a loss of proper load carrying capacity. Therefore, the Alleys and some Gravel Roads may not be snowplowed due to the fact that the physical damage and rutting that would occur to these Alleys/Gravel Roads outweighs the short-term benefit of plowing them.

Once and if the Alleys/Gravel Roads are again able to again withstand loading requirements, plowing operations will resume.

The Road Commission will consider the plowing of these Alleys/Gravel Roads in certain necessary or emergency situations.

Please contact the Road Commission at **906-774-1588** with any questions/concerns

Thank you for your understanding,

Jim Harris, Superintendent of Operations, 2-27-2018
