

PUBLIC SERVICE ANNOUNCEMENT

Dickinson County Road Commission Alley/Gravel Road Plowing during Seasonal Road/Weight Restrictions

Please note that annual Seasonal Road/Weight Restrictions have been implemented and are being enforced on the County Road System. Due to the upcoming saturated/unstable conditions on the Alleys and Gravel Road systems there will be a loss of proper load carrying capacity. Therefore, during these restrictions and depending on actual conditions, the Alleys and some Gravel Roads may not be snowplowed due to the fact that the physical damage and rutting that would occur to these Alleys/Gravel Roads outweighs the short-term benefit of plowing them.

Once and if the Alleys/Gravel Roads are again able to again withstand loading requirements, plowing operations will resume.

The Road Commission will consider the plowing of these Alleys/Gravel Roads in certain necessary or emergency situations.

Please contact the Road Commission Office at **906-774-1588** with any questions/concerns concerning Alleys and/or Gravel Roads.

Thank you for your understanding,

James Harris, Managing Director, 2022
